

	QUALITY MANUAL	
	Date of Issue:	08/11/2016
	Revision:	1

4 Scope

4.1 Scope of Quality Management System (QMS)

The scope of this Quality Management System covers “The manufacture of precision components using a range of CNC and manual machines, in accordance with customer requirements. The scope includes all clauses of ISO 9001: 2015 except because of non-applicability:

- 8.3.4 Design and Development Controls and 8.3.6 Design and development changes, as Styles Precision only have a design input (machining solutions) and output (manufactured prototype part) but do not control design changes, verification and validation as Styles Precision are not design responsible
